

I would like to express to you mine and my family's appreciation for the radio station K-LOVE. My family listens to this station all the time which is a great encouragement to us. We can listen to this station no matter who is listening with us like little children without concern for bad language or messages. The music and messages are encouraging and up-lifting for us at night or in the day. This station offers the kind of program that is not easily found. It is good for all listening. Please make it possible for this station to continue. Please do not allow LPFM stations to have priority.
